JMT Model: C:\Users\csg\AppData\Local\Temp\jsimg\tp8e6c2ee8 2d04 4ade b3f7 e6241a68e174.jsimg

Define customer classes

Classes Characteristics

Define type (Open or Closed), name and parameters for each customer class.

Closed Classes: If a **ClassSwitch** is in the model, then **all** the closed classes must have the **same** reference station.**Open Classes:** An open class that has **Fork**, **ClassSwitch**, **Scaler** or **Transition** as the reference station is **not** generated by **any** Source.**Priorities:** A larger value implies a higher priority.

Col...	Name	Type	Priority	Population	Interarrival Time Distribution	Reference Station
	Machines	Closed	0	2		WorkingState
